I know a young Freshman from Reno,
Who's far from what he now seems - o!

With ideas for cash

He made a wild dash

To the mines to complete his dreams - o!!

II.

"Virginia City Mines!" was his only thought
As just in time the Vaud he caught

(Tom Walker's his name,

He's a frat!! bet he's game!!!)

And work in the burg he successfully
sought.

III.

For a pard' all the while he has a young chap
And if Tom and a cat should get in a scrap

None other than Bob

Would be on this job

To put out a cat and not give a rap!!

So here's to the fellow^{IV} with purpose so strong,
Who takes his vacation by working along
At any old trade
That happens to aid
In making his purse for school a mere song.

And here's wishing you luck for the coming
New Year^V!!!
May it bring you just scads of friends
and good cheer!!!
Keep a stiff upper lip
And you'll gaily skip
In less than four years to Cornell
it seems clear!!!!
