UNIVERSITY OF CALIFORNIA CLUB
SAN FRANCISCO

Tues. morning.

Sweetie Ruthie;

must I tell every thing
I do. Oh. say not so for
I should write four days and
go one. well here's a
program.

you left us yesterday
about to go to the fair -
we went and wonder -
of all wonders - except
you!!!! Jack and Haseman
staid till four-thirty when
they left for Jack's home
in Redwood City to stay

until morning. Jack gave me a card to
the U. of C. Club so I won't be lone-
some till they get back. He also put
me up at the Chi Phi House. Some-
class to the way I'm working it.

Had a fine dinner at the fair
last evening. I know it was fine
'cause it cost 80¢ and I didn't have
half enough. Tonight a U.C. man and
I dine together at the Heidelberg, and
take in the Orpheum later on.

Well! well! get back where you
belong. Last night they illuminated
✱!! ✱ etc. etc. you know all about
that, and you told it so much better
than I can that I won't start.
In connection with it there was a
water carnival out where the battery
of searchlights are placed. A program of
music, singing (that was kind a musical
too) dancing, cowboy roping etc.,

and beautiful illuminating effects with steam and water spray from a fire batt. The fire works were absolutely gorgeous.

A bang!!! five or six sparks in the air, as many cracks and then the colored lights focused on the smoke as it drifts away, among the millions of stars that are shot out. Some times large animals would float about after an explosion, and other times American flags. Truly wonderful.

(you see we have two
kinds. ^{Easy!!!!}
(Two what? Oh pieces of paper)

When I had just
about enough of that
it was time to hear
the Boston Symphony
Orchestra. Had to stand
up but I had been
sitting(???) all day
so didn't mind. There
are only a hundred
pieces in that orches-
tra so it wasn't

very good. I enjoyed it fairly well
tho'. A - o - o - h I'll never get
over it. Absolutely the finest ever.
Festival hall, in which it was
held, is a beautiful place anyhow.

I'm not laying off on my job
while here tho'. Started this
morning to pull strings for an
electricians job on a canal liner.
Hope I can land something like
that, or better still. I hope Subes
can offer a better suggestion for
me to follow. Especially one that
will take me to Reno for another
kiss like that last one.

We bumped into Miss Denny and
Lehenbauer at the fair yesterday
and of all sheepish people they sure

were it. Don't know
what was on their
minds.

I'm going out to
the fair again now
till six o'clock, so
an revoir. - g - weenie.

Sona get a letter
from you tomorrown.

Hoo - ray. (and by the
way - you should see the
swell card case Ray Perry
stuck in my pocket Sunday
night) Jus' - wonderful!!!

Soo-bye sneaky you see
sing and here's a awful big
kiss for ye. x x Tom
