My love -

Today was a big day.
I got 3 letters from Sammy,
including the one what
had a round trip to L.A.
that was a peach & I'm
glad the L.A. officials returned
it reasonably soon.

Same proposition as
L.A. this going to Sanopah.
The least earnest desire is
with me right away quick,
and Ruth Bennett is a
peach for asking where
she knows me so little.
But we'll see. — How
long'll you be here Xmas?
What? What?

Here's the kind soul
what's gonna give yuh the
dope. Hope no one beats me
to it at this late date.

P.O. (without) have pledged Henry
Rhodes - and say, I've heard
more nice things about
him than all others put
together. Saw Edsall + Bert
you know. Clay Willis + Jack
Wright from Sparks; also
Bill Bryant. A kid by the
name of Allenby - haven't
seen him but some of the
girls say he looks like a
farmer and he's made
first team all ready;
Clement Caffrey. You got your
share of brothers all right.
Guy Spencer too, otherwise
dubbed 'baby brother.' He's
got to be made over.

3.

The other day Bob invited
"baby bro" + Isabel S. Spencer
to dinner. Guy said he
didn't know how to find
her + told Bob to do it.
Imagine Bob! He ups +
sly, "Say — who was your
freshman last year. I've
invited you + Isabel to
dinner. It's up to you to find
her. If not, don't come.
Then they've asked Hawkins,
Hally, + Woods. I hear
Woods has gone Phi Delta Tau.
Personally I think Woods is
a nutt. I haven't even seen
or heard anything about
Hawkins. Hally looks mighty
desirable, even tho he's small.
The whole sum is 14.

Now about Sigma Alpha -
Francis Young (George's bro.)
Bob Graham - he's got a girl in
Oakland so the girls haven't
had a chance to test him
out. That must be the guy
you were interested in when
you were here. Cantlin, -
whoopie! take him out to
the dump. Gee, he's fresh &
"with the" "Put me among the
girls" air. Williams (a
bro. of Lee) and a McDonald
from Oakland. Just at the
present time he's got a
awful crush on Grace Myers.

I wonder about the DT, all
I know they have Sheldon
Crawford.

Sigma Nu has a guy by the
name of Coke. He's a boob.

The Sigma Mus aren't so much in prominence this year.

Dridetts have Constance Watson, Lillian Gwynn (a good looking girl, but she's gone with that Maxon kid for months) Ruth McDonalds (a friend of Adelle's) Bessie Markheim from Stockton (she's the flirtiest thing. of course, pretty, but all the fellows say "nobody home." as far as I see she's a second Eleanor Rogers. We didn't even invite her one place.) Zelma Francis, maybe Ruth Wheeler, I don't know yet, — some more perhaps but they've left me.

Last night my good intentions for study went bust. Helen + Otto + I went down town + to Kanes. Didn't get home until after 12 either. Helen + Otto haven't come when it was time to mail your letter, so I beat it down alone. They were switching the mail car on so I waited + up popped Isabel + Freddie. Isabel + I both looked at each other + asked, "What you down here for?" and both produced a letter. The boys are crazy about that pair, but you know she won't go out with them.

I wish she would cause
 she surely would never
 have to go out twice with
~~the~~ same fellow. And
~~the~~ way she refuses ^{them}
 is too cute — she's got such
 a way about her that
 it makes them like
 her better. My word! she
 could be the most popular
 girl ever struck the campus!

I hear that Ruth
 Miller perhaps isn't
 going to the meeting
 tonight. Well, — I'll get
 the message to her
 some other way then.

Baker from Auld Co.
 jeweler is here with the

Sigma fellows + he
will be with us tonight
after the meeting.

Will I tell you that
Wed is Asilomar meeting
+ they've given me the
job of closing the meeting
with the spiritual
inspiration of Asilomar
morning meeting. Miss
Wygal said to make it
deep. Ugh!!

Got a letter today
from Miss Brown congratulating
us (AP) in the way we
handled our dance,
the guests & the whole affair.
"It was the ideal informal
dance."

So today Dave Abel comes to me to arrange for their chaperones & to take care of them. You see the Aggies give an informal Friday.

and whom am I going with!! Gosh! Helen Dutton talks to me & says Willard tells her I won't go to the dances with him. She says she does not want to go to dances up there - all students - and maybe he'll learn to talk & make people like him. So Ruthie is an easy mark. Last night I asked Isabel to go with us, & she said she would.

Son, do you know how
such a vacancy as Dana's
is filled? Ja Ja Ja Ja -
all the time about it.
I haven't been to a class
on time. Always someone's
else case is to be heard.

Halt your own self!
You got more work mapped
out than you ever had
up here even. Yet you'll
spend three weeks here
wif me I mas? Ja - as!

I can't think of any more
what you should know.
So kiss me quick for I
get my stuff for the meeting.
Good I love yuh! Remember -
no colts for you this winter!!!!
It's so grand to think
you aren't so far away

as Boston & that I'll see
you anyway I mas.

Hang the thought!!

Bye honey kiss

yours forever & sorry
as de dickens I ever
had a evil think
about you'll goin'
away; and thinkin
about you all the
time & wantin' you
worse. Who?

It's

Lucy with
a load of kisses.
