Wednesday

Domnie dear, -

It's after 12, but I
can still see the paper.
H & I is giving a swell party
this Fri. night at Century
club. It's to be a dinner-
dance - and gee! I don't
dare think anything else
until that's over.

Our engraved cards
came today + 3 of us
got the bids out.
Marie, Al + Lou + Peggy Crotty

down in S.D. are sending up
quantities of fern, + carnations;
likewise, at each nook place
at the table a red balloon
floats above with H B & and
her name written on in light
blue.

Nobis Myrtle's job was to
couple 'em off. Darned kids
won't tell me who's to take me,

but laugh. One of the girls
said it was the JAE from
Minn., or the East some place.

Anyway, I'll get even on this
secretive person when he
leaves he must help pace
off the grand march.

I've got to give up Spanish
as I'm not in the office
enough, + prof. doesn't like it
