My Lover -

Twice in one day I'm
writing you ole sweet
kid what I want to love
all the days. Your letter
in answer to my wail came
this noon — and the
world's all rosy! You're
the most wonderful
sweetheart !! Nobody else
is lucky enough to have
one like you, and I have
to keep recalling little things

we used to do, to know it's I'm.
Tonight Pres & Mrs. Hendrick had
Agnes Constable, Gardner, Adele,
Bob, Bill Melarkey, & me to duck
dinner. It seemed like I couldn't
wait to get home just now so I
could be with you again to read
all you said. One thing they
always make your presence seem
so real. You'd almost think
I could look to the one next
me and expect to see you,
honey kid, making a brave
get away with a piece of pork.

You're the best darling in
the world to explain away
my chaos, and to be patient
with it all. Is it because
I've lived without a family
so long, I believe in harboring
all my troubles until I
can't see another solution —
then out with ~~it~~^{them}. Whatever
the reason, just know
sweetheart mine that from
now on you'll get em in

their infancy. Sommie, but I do
see the importance of our working
together and that for all time.
I'd like to be there to see you
every night even though it
meant but an hour and
"you'd have to go home." But

I'll do my best from here !!

If all the jobs loom up I want
after graduation my debts will
be all paid after a few months.

Then we'll be ready to concentrate
forces, any time you call time.

Mr. Dutton asked me tonight
if I'd take a position in
his office. Upon finding I
was set on finishing, he
said to let him know
in May - if he didn't have
work, he'd see I got work
in the S.D. office. Presy
told me tonight he'd
outbid anyone. But I'm
not planning altogether
on what these two gentle
say - not until they really
do it. There's one thing,
I don't want to lose
any time after school
as I want to take a month

off just before the big event.
Eva + I were talking the other
night. She was pleased to think
I was going to teach a year
afterwards, or what was the
use of the certificate? So many
people have said to me - "don't
wait too long - don't put it
off from one year to the next -
you're losing the best part" -
etc. - until I'm quite sure
I'd sooner go into an office.

Here it's much freer to
quit or stay on as you
will. The other plan would
work perfectly O.K. if we were
two or three years younger.

Another idea got to working
too. ^(Boston) Simmons College was inspired
into me by Dr. Capin (school
surveyor) + Miss Kempton.
The idea to train for a private
secretary + Dr. Capin was quite
sure, backed with my experience,
I could finish in 6 mos. (by Xmas)

He said I no doubt could work
some. The safest way would
be to borrow \$500.⁴⁷ I wrote
them anyway to find out more
definitely.

So bed - cold too - feet as well.
(Just see what you're missing)
Can't you feel the warmth &
glow of my love even from
that distance. You've brought
peace, perfect peace, to my heart,
sweetheart. I know you must
have it, or you couldn't have given
it. And so tonight we stand looking
into each others hearts knowing perfectly

different
you
have
would
seem
ough
