Dear Warranath: I am only a voice out of the past, probably long forgotten by you. Does the mention of the University like stir revive any memories in you? I was your substitute by the grace of Tommy Thompson. This boy Tom Walker would have been useful to us in those days. He has a real voice. I am very proud when I contemplate your brilliant record, knowing that we need to work together. Yours Herman W. Albert

five years ago before graduating from that Institution. Herman Albert, who you no doubt remember well is living here at the same club and we often look at the advertisements of the Victor company and point with pride to your picture and say we know him well.

I see a good deal of Pot and Jap when in San Francisco. They both are coming out on top of the heap one of these days. This year both are doing especially well. I shall probably see you personally before many more years have passed. With best wishes for your success always
