

Miss Ruth Pyle,

629 Lake St.,

Reno,

Nevada.

Isabella Rowntree

1899- —

Born of poor but honest parents etc. nice girl and all that, but maybe a mite too good for the rest of Jonopah High School. (The latter as per S.K.) and in passing that's why Isabella doesn't like here. Isabella is a Junior and will attend no college except U. of C. Her father graduated from there, and her mother's and father's families are old residents of Berkeley. Isabella likes Prunes and saughtnuts - to ride horse-back and can do society like a regular dame. A bit overgrown and spoiled, but in the right place mighty attractive. (see R.P. Farrar Esq.)

This information strictly confidential and to be used for the "cause" alone →

Now then proceed.

Boston etc. the 17th. W.A. C. the 17th.

Worshipful Council of Senators,

First of all I graduated your case and

have this night deposited your congratu-

lations to Brazil - asked for impressions

of the company, and whether or no the case

considered, because, this line got a drag -

especially with the folder, and it is

~~exercise~~ exercise it for the cause too -

no thank!!!!

Two letters today that stated

up a wonderful bunch of circumstances.

There enough to be there with development.

but mostly with you. Good the that

the fish are coming into their own.

Hope they can come out even more.

It is all over now except the same!

and at the moment you are getting

ready for the race - the now 8:15 in

Peru. Don't it lighten up around my heart

to think about it all, and yet I can see

the real side of it ~~is~~ <sup>too</sup>. we have to  
pass all that up, and start bigger things.  
The trouble is to do it when we're  
cut in half. When we can combine forces  
and not need to sigh and mourn a  
heart 3000 miles away - then results  
will count. Let's be satisfied we've made  
a start, and that it's the kind of a  
start that finishes.

was interested in Gamson's account  
of the interview with Sukes. We'll want  
to play up to those fellows because  
at some psychological moment, they  
may swing the balance for us.

I'm on the trail of two SAE  
chapters here; one at Harvard, and the  
other at Tech. May be able to do some  
missionary work fore school closes.

So - night my love what's now dancing  
with some other fellow. Believe me I'm crying  
all over for you - I want you all for myself.  
You know I'd love you - and hug you - and  
kiss you if you were here now. best I can do  
is tell you about it my own love  
xxx Love, Don xxx  
xxxx
