Dear Sir,-

It has been suggested that you might be interested in the principalship of Consolidated S. Our three room school is five miles south of Fallon and has in connection ten acres of sand and sage brush. Last year we gave one hundred a month and janitor fees. Are you interested?

If so, are ^{you} interested in athletics, and agriculture and what are your references?

Yours truly,
[Mrs] S. L. Dunne, Clerk

Wed Aug.

My Sweetheart,

A wee bit note to my love again,
and an acknowledgement of our most
all inspiring letters. Let 'em come in
tides - I love 'em all.

Would you like to live in Fallon,
on ten acres of sand & sagebrush. I
sent a clear, concise, and courteous
refusal of the enclosed tonight. The
point is that some one is interested
in boosting me along as a pedagogue.

That I could report extraordinary
weather today, but a shower at 5:30
made this day the same as all
others.

So - night now, and the love
of an eaten up lover to you. Kisses
and hugs for desert. Ummmmmm
