Lower kid -

yep, I'd do anything for you. I'd sell
pretzels on the streets of London, and
everything — but we're heaps busy.
His "Baby Pi Phi" needs more attention,
and wakeful hours than any
baby ever created. But I'm more in love
with it than that last mentioned baby
ever got.

Dom, the grand grand time in Calif
is beyond mch! they met us with a
bang and bang! bang! fun all the
way thru. Besides we learned a lot,
and never slept — no need of it there.
There's a lot to tell you, Dom, when
you come for your spring vacation —
I'll not forget it no matter how
long it is when you get vacation,
cause it was great! a pin makes
a world of difference, — and here I thought
Emma + I were having a good time
last spring. maybe we did, but nothing
so personal as this! Kate Woolsey
doesn't or rather couldn't recall
"Margaret Rogers". Jack sent his regards,
even tho he believes you're a myth.

The week ~~end~~ end for Y.W. promises much
in the line of entertainment from
those sources. I told 'em I couldn't leave
early, but they're going to fake a telegram
or something. As it was they tried to
make me miss my train. Fact is
the thing was started when I got
booster on. Halt! you'll be thinking
there's nothing else to tell — but that's
not true, so I'll keep it!!!!

Now all the various committees
are working on the dance and
Saturday. The initiation begins

" at 10 o'clock & we expect the
banquet to be over about midnight.
Oh, but Tommy, it's gonna be wonderful!
Just like getting ready to be married,
only it's ^(going on) not gonna be such a
strain. I'm going with Bob ~~Saturday~~
Fri. night.

Sad this what I have to say. While
in Berkeley I lost my brown dress.
The only thing I can identify it is to
say on the very front it had a T H P O
pin with T P W on the back! Everybody
laughed when I asked about it, but
it's true, — and I'm a sad woman!!

Bye love! After Sat. I'll write
a honest-to-goodness letter. Right now
I'm living these days just preparing +
praying + hoping for the success of Sat.
Wish you were here, then I'd be sure...
