Monday now.

Valentine.

Oh ma honey-

Two letters a few moments ago from you!! I'm glad we both love each other now like we should, - and this is an appropriate day, sure nuff!

This valentine, Sammy, brought a lot better sentiment than the one you sent Special Delivery.

Mrs. Doten came in the office this A.M. & right away Mr. Doten had an errand for me down town. Gee! I think he's stingy, cause she looked so pretty I wanted to look at her too!

Hooray for vacation! all day the 18th all we Pi Phi's will be taking the annual Fraternity Ex., so after that siege I'll be ready for a regular spree that night. maybe I'll meet you at the depot & maybe I won't, - you can phone me from Sparks.

now it's time for dinner again.
I'm starved clean down to me toes!
Still that's not half the way I'm starved
for even the sight of you, lover! You're
a busy time, - more'n usual, - ahead of
you, and just remember you're ~~not~~ to
abuse "Tom Walker", - he's mine
and what's mine is my own, not
yours, in this particular case.

We were mighty glad Toropah cleaned
Reno Hi. They need the clearing. Is
Fanny Holmes a girl we want, and
what yr? She surely sounds like the
right sort.

Bushels of love to my honey kid.
