

Miss Ruth Pyle,
629 Lake St.,
Reno,
Nevada.

Tuesday Night.

Hello my Sweetheart
what shall we talk
about tonight, I wonder.
It wouldn't be hard to
know what to say if
you were here to answer
back.

Last night we enter-
tained with music, and
I was all in. Couldn't
even scare up enough
courage to talk to you.
Tonight we had a

meeting at the office to
learn about water heaters.
Perhaps I've told you of these
meetings before. They happen
about once a month, and each
time some authority is im-
ported to lecture and answer
questions on the different
subjects. The company puts up
an excellent supper, and all,
whose work is along the
lines of the talks, are invited
of course I get in on all
of them - and they are very
interesting.

I am getting, or rather
will get, a mighty good in-
sight into big manufacturing.
Yesterday I spent a couple of
hours in one of the largest
shoe shops in Haverhill, and
then in the afternoon at
merrimac in a factory where

they make brass moulding for
auto Bodies. Amesbury, a town
close by, is supported mainly
by the auto body manufacture.

was looking at a new
suit today. Gosh I'm wearing
my only clothes for all time,
and can't quite figure new
ones. Aint it awful!!! Dom-
mie needs new shoes too.

Oh well —————> guess you have
the same troubles only more

of 'em.

I'm waiting more reports of the S.A.E. in -
~~stallation~~. It all sounds
so wonderful to me - the
way those fellows re-
sponded, and the way
the active members saw
it through. There is
a lot behind that
bunch. I want to be
an S.A.E. too - pretty
 pronto.

Say all this compe-
tition for your services

makes October a very short
time away. It's I who will
need to hasten to prepare.
I'll do my worst - sure I will.

Good night - my own love -
who is in my thoughts all
the time. Every day I love you
more, and want you more - all
for my own to love, and to let
you love me, and keep me in
good spirits all the time.

all your Loves, Your
