Dommie dear

This letter is going to
take a trip to Chautauqua,
because I want you to
get a letter, - and I
want to talk to you
besides.

Your letter came today
bringing the seriousness
of the war and its
effects on us. Is that
to be the Engineering Corp

See! I hope everything works out
O. K. with us.

We've arrived at the Chataqua
now. You'd rather get these scratches
than nuthin' ? Sure, - I almost
called you a sweet name, but there
be folks with reading eyes.

This is just sumthin' else on
the wing. Sis said that Bill
Wiley will resign from Wells
and Prof says, "I want you to
have the principalship". Oh,
wouldn't it be great if I could
get it? If you're going off to a
camp I surely do want to be
awfully busy. It's good pay too
\$150 ^{per} for 10 mos. But I suppose they
will want a man - darn! - or
anyway someone whose had
experience.

The Quartet here last night
was so very good, - and I was
thinking about you all all the
time. I like to go places with you
cause you just drink in things
that are real music. Oh, what I'd
give to hear you sing.

you know I've just been
thinking of the time when
in about 1919 we went in
Hertz on some errand. You
stopped to look at some diamond
rings & casually said,
"I'm gonna get one of these
for my fiancee sometime.
And I'd have one some day
too." Just to my heart that
wanted to beat an extra
one, I say, "Shut up, - have
a good time while you may."
And it was I — (signifying
big squeeze) gee I'm happy to
have you — "Uncle Sam" won't
take you off, will he. I gotta
have you. Everything's here & more
too. Your own Snydelyko
