Dear Mother + Sis + Bert,

In a letter from Ruth tonight a nice long one from Eva written during an English Exam. was enclosed. and in it there was a statement that you had not heard from me in a month. But it doesn't seem possible for I'm sure I didn't pass you up for any such time as that. I've neglected everybody for a long time, because there's been lots to do, but I am sure that I didn't miss a whole month.

The Paris edition of the N.Y. Herald told of my being cited for the Contigny affair. Since reading it I've received

The notice. The French citation that was to bring the croix de Guerre - but was stopped with several others by Gen. Pershing. I haven't got a hold of yet - but when I can get a copy of it I'll send it too. My promotion is still coming - It's slow but I'm sure it's coming so why worry.

I'm having our A & J paper "The Stars and Stripes" sent to you - Haven't done this before because I knew you were getting more war news than is good for you, but now you are a bit used to my being here, so I'll venture it. Don't picture me in all the wild escapades written up. I'll give you first hand info of all my doings.

Isn't sis a little wonder for getting a \$30 raise? I'm kind of proud of that. Your plans for next year are very cheerful indeed. When we can all settle down again I'm sure it will be for comfort and happiness for all of our little family. We'll plan to get together - all of us - because then we are happiest.

Now it's past eleven and I get up early. Also I work late for there is a great deal to be done these days. I'd better go for all those

reasons.

Oh! I must thank you for paying
the NY Life bill. Ruth told me
that she had sent you the money
for it. we must keep that up now.
Did I tell you that in addition to
that policy you are also beneficiary
for \$2000 ~~but~~ was Risk Insurance?

Now my candles going out - I'm off
Love to you all - a lot of it.

Love XXX
