OFFICE OF THE PRESIDENT

wed.
July 1st '53

Sweet Rufus -

"Thank you" letters used
up all our fancy stationery.
This came all fresh today.
Thought you'd like to see it.
Your Tues. aft. letter
was here before noon
today. Quite good I'll
say. Course! I didn't get
it till this evening.

Tried on my two new
suits today, and they're
already delivered here.

Will go up Sunday -
Don't know yet whether
by Eastern or Transco.
I'll call Fri. evening -
Could it be you would
come to Wash. too? I'll

be there three or four days. Then to N.Y.

What a thrill to have a prospect. How about when I come in go into the selling business in earnest? I'd like to get settled - wouldn't you?

Thank you for the oil royalty dope. It sure did speed it on its way to take it to the P.O. I think I told you I'm all set to surround Cal. Kuddell when you arrive. It won't be too bad to hang around here till we can locate. The place is about vacant this week - no conventions and few guests. Really get good service in the Pine Grill.

Called Pearl today to tell him I can't go to Camp Pearl over the 4th. Invited him & Ned to the Petroleum Club tomorrow night but no can do. We're members now. Guess I'll have our gang.

A quiet day of housework mostly. I feel on firmer ground as each day passes. Will do some missionary work in Wash. with the I.P.C. I also hope to find we are back in the Metropolitan Club. Jim Oliphant is handling the situation.

Talked to Carson Sublett today. He and Ruth have two children 4 + 2.

Got to home a bit for my test

for a driver's license at 9 in the
morning. shouldn't have any
trouble!

Bye now - and much love -
See you soon!
