Houston 1, Texas

Friday 11 June 54

Dear Folks,

Mime certainly had the right idea when she said that you would appreciate The Bow St. Journal! Thanks a lot for sending it Pop; really did get a lot of pleasure out of reading it.

We are real excited about going to Darien, and can hardly wait to start moving - Canary received a very nice letter from Mrs Coatsworth yesterday. She was very encouraging and enthusiastic - said that the population in Darien had doubled since they moved there in '46 - (it's about 13,500 now) - All of the doctors appear to be busy, and that's good too -

The children are fine & healthy - Jimbo
keeps asking about Grandpa; but since he has
not learned to write yet, I'm afraid
it will be awhile before he sends you
a written invitation -

Must close; this really is a
short letter but it does bring you up
to date - Thanks again for the paper -

Love
Jim
