to bed.

Last night after being in Hartford for a conference and lunch I also had dinner with the Jacksons. The Valentines and Eleanor I nothingham were there and Izy had a delicious chicken dinner.

Today I had a fairly quiet day - a session with Dr. Watts who had some minor repairs - a haircut and lunch with Geo. Clifford. Irene returned yesterday morning.

The twin coach was here yesterday and I used it to go to Hartford - sure made a nice trip of it.

We have no early appointments in the morning. I'll start out for Wash. sometime around noon. Jim takes off at 8.15. We've sure had a nice visit Sunday and will have again tomorrow. Neither of us has heard a word from our wives except Dr. Brodie reported you were going to it in a big way. Love from
