Sweet Rufus -

Here are your blank checks delivered as per instructions. You'll have another month's fund in on the 26th - that is assuming you don't get hung up in Reno - when you overstay your time, there I'm cutting you off quick!

My birthday has been most successful. Cards by the dozen, and about a half hour ago I was ordered into Jim Henderson's office but sidetracked at the dining room where all the officers and their Sectys' had a big birthday cake and coffee all set up. a Real nice party. Among lots of cards were Silyle - Ruth Hanitsch, Anne Michaelson and Margaret Browne. Quite a comfort to know I'm still on their lists while my wife is in Reno, of course all my

children remembered too. what
fun. the office gang made quite
a point that this is also my
first anniversary here.

Jack and Virginia are in
wash. but sent a wire. Had one
from Sue too.

Mildred called me early this
morning and asked me for
dinner tonight at 6.30. Haven't
any idea who will be there.

am picturing you on your
way to Elko today. Then to Reno
Saturday or Sunday. I talked to
Hap Faller today - He knew about
Pete but says he's not seriously
ill.

We are going up on the
Ventura Sunday. to be in
wash. indefinitely - I'll keep you
posted.

Sure would like to be with
you in D.F. You know how
much I like that city - and
the Smiths. Have fun all of
you and hoist a couple in my
memory - Lots love Sweetie!
