Drumst. Ruth Family.

The article enclosed brought out some thing of family history from Mother this morning that I thought might be of interest to you. Either the boat mentioned in this article or one just about that time anyway brought Grand Mother McCans. Grand Father and Grandmother Her Grand Father's name was Samuel Arnold and her Grand Mother Church or Churchill she is not sure which it was. There has been quite a change in New York or Manhattan Island since that time.

I am sending you a letter from the Royal Purple Lodge at Coquitlam of which Mother was a member. You may answer it if you will.

I think I have answered all the questions you asked me if not write me again I want you to know all and do not intend to miss anything.

Two weeks ago today I will never forget. I am much better now than I was then but somehow I think of Dear Mother all the time. Try at times to forget those two unhappy months and remember only the many happy years we lived together. But it is impossible. I loved her so much and miss her so much. Your letter cheer me. and having you and your family to love and live for makes it worth while for me to live and sometime we will be happy together. Miss those dear little ones for me and write as often as you can.

affectionately Dad.
